

BROTHERS!

This morning is the most glorious morning in the history of the Earth.

PEACE is upon us! A gift for every man, woman and child from the Brotherhood of NOD.

VICTORY! Not only for our people, but for our species! The time for questioning is over. Rising from our trenches, our bunkers, our factories, we must all now partake in the technology of peace.

One Purpose. One Vision.

TIBERIUM is the way and the life.

Today the sun rises on a new world, and a new people.

THE END IS THE BEGINNING!
